PROFESSIONAL EXPERIENCE

Dell Technologies

2023-2026

Lead, Business Transformation and Analytic | Server Revenue Operations

Galt, CA 2023-2026

Led digital transformation from a resource-intensive 2-person, 80-hour-per-week process into a streamlined and scalable 1-person operation

- Led transformation and analytics initiatives supporting a \$16B+ enterprise server business, improving operational efficiency and decision making
- Partnered with pricing, finance, sales, and operations leaders to identify business needs, define priorities, and deliver scalable solutions
- Built forecasting, reporting, and analytics capabilities improving planning accuracy above 90% and increasing executive visibility into performance
- Redesigned workflows and operating processes, transforming an 80-hour-per-week process into a scalable 1-person operation
- Managed cross-functional initiatives involving business and technical stakeholders, ensuring alignment, adoption, and successful execution
- Developed KPI frameworks and reporting mechanisms supporting performance management and strategic planning

MBA Intern, Austin, TX 2022

- Developed pricing framework to analyze efficiency and improve profitability of discount strategies
- Created new tools and KPIs improving current strategies to be replicated worldwide

Asociacion Chilena De Seguridad (Hospital) Santiago, Chile

2020-2021

National hospital in Chile focused on workplace safety, medical care, and injury prevention.

Commercial Strategy and Operations Lead

- Redesigned operational workflows and intake processes increasing sales 20% and improving service delivery efficiency by 60%
- Built analytics and reporting systems improving operational visibility and reducing reporting effort by 90%

Moller y Perez Cotapos, Santiago, Chile

2012-2020

Associate Manager of Business Development, 2018-2020

- Designed automated forecasting and financial modeling tools improving forecast accuracy by 50% and reducing execution time by 25%
- Led team of 7 analysts, establishing operating cadence, prioritization, and execution processes supporting acquisition and evaluation activities; acquired 10 properties worth \$64.6M
- Led strategic partner relationships across 22 projects, contributing to 60% business unit profit growth
- Developed business cases and financial risk assessments supporting board-level capital allocation decisions
- Coordinated complex cross-functional processes involving contracts, finance, legal stakeholders, and investment partners to support transaction execution and business operations
- Managed contract-related processes involving finance, legal, and investment stakeholders supporting transaction execution and commercial governance

Head of Business Development, 2017-2018

- Developed and presented investment and commercial strategy approved by board, supporting acquisition of 9 properties totaling \$57M
- Negotiated and structured commercial agreements and joint venture terms with investment partners, coordinating legal, finance, and other stakeholders; closed 8 deals totaling \$40M and 11% initial ROI
- Managed complex stakeholder coordination and contract-related negotiations balancing business objectives, execution timelines, and risk considerations
- Oversaw the search, study, and appraisal of 1.2K new real estate for buildings and houses, worth \$4.2B
- Developed financial evaluation models supporting larger-scale multi-year development investments

Product Manager PM, 2014-2017

- Led cross-functional execution across commercial, marketing, construction, and development stakeholders improving customer acquisition and sales performance by 25%
- Managed competing priorities, stakeholder alignment, and execution across initiatives and timelines
- Coordinated external and internal partners to remove execution bottlenecks and maintain launch timelines
- Negotiated operational agreements supporting cost and delivery objectives

Development Engineer, 2012-2014

- Conducted market research and financial modeling on hundreds of properties yearly
